

ELITE SO-DIMM

TEAMGROUP's ELITE series releases an all new DDR4 SO-DIMM product. It is compliant with JEDEC international standards and the operating voltage is only 1.2v, which saves a lot of power consumption. It reduces the heat generated by the product itself and also maintains the ambient temperature around the system. It is also proven to be 100% compatible with all major laptops on the market. High quality IC are selected for their outstanding performance, stability and compatibility, making them the best choice for laptop users to expand their capacity.

Main Feature

- All new generation product of DRAM module
- 1.2V memory module
